## BOOK SYNOPSIS

When the armies of the First Crusade wrested Jerusalem from control of the Fatimids of Egypt in 1099, they believed their victory was an evident sign of Gods favor. It was, therefore, incumbent upon them to fulfill what they understood to be Gods plan: to re-establish Christian control of Syria and Palestine. This book is devoted to the resulting settlements, the crusader states, that developed around the eastern shores of the Mediterranean and survived until Richard the Lionhearts departure in 1192. Focusing on Jerusalem, Antioch, Tripoli, and Edessa, Malcolm Barber vividly reconstructs the crusaders arduous process of establishing and protecting their settlements, and the simultaneous struggle of vanquished inhabitants to adapt to life alongside their conquerors. Rich with colorful accounts of major military campaigns, the book goes much deeper, exploring in detail the culture of the crusader states--the complex indigenous inheritance, the architecture, the political, legal, and economic institutions, the ecclesiastical framework through which the crusaders perceived the world, the origins of the Knights Templar and the Hospitallers, and more. With the zest of a scholar pursuing a life-long interest, Barber presents a complete narrative and cultural history of the crusader states while setting a new standard for the term "total history."
