BOOK SYNOPSIS

A rollicking indictment of the liberal elites hypocrisy when it comes to food. Ban trans-fats? Outlaw Happy Meals? Tax Twinkies? Whats next? Affirmative action for cows? A catastrophe is looming. Farmers are raping the land and torturing animals. Food is riddled with deadly pesticides, hormones and foreign DNA. Corporate farms are wallowing in government subsidies. Meat packers and fast food restaurants are exploiting workers and tainting the food supply. And Paula Deen has diabetes! Something must be done. So says an emerging elite in this country who think they know exactly what we should grow, cook and eat. They are the food police. Taking on the commandments and condescension the likes of Michael Pollan, Alice Waters, and Mark Bittman, The Food Police casts long overdue skepticism on fascist food snobbery, debunking the myths propagated by the food elite. Youll learn: - Organic food is not necessarily healthier or tastier (and is certainly more expensive). - Genetically modified foods havent sickened a single person but they have made farmers more profitable and they do hold the promise of feeding impoverished Africans. - Farm policies arent making us fat. - Voguish locavorism is not greener or better for the economy. - Fat taxes wont slim our waists and "fixing" school lunch programs wont make our kids any smarter. - Why the food police hypocritically believe an iPad is a technological marvel but food technology is an industrial evil So before Big Brother and Animal Farm merge into a socialist nightmare, read The Food Police and let us as Americans celebrate what is good about our food system and take back our forks and foie gras before its too late!
